Suppose that Jeff has health insurance with XYZ Insurance Co. His policy contains the following information:

- $20 co-pay for all prescriptions
- 20% co-pay for all doctor visits
- 100% coverage for all regular dental check-ups
- 50% coverage for annual eye exams
- 20% coverage for eye glasses/contacts

Jeff has the following health care visits this year:

- Doctor Visit #1 for a total cost of $550
- Doctor Visit #2 for a total cost of $340
- Medicine from Doctor Visit #2 for a total cost of $100
- Regular dental check-up for a total cost of $350
- Regular annual eye exam for a total cost of $400
- Eye glasses/contacts for the year for a total cost of $700

1. Based on the information provided above, what would Jeff pay out-of-pocket for his medical costs?

2. Based on the information provided above, what would XYZ Insurance Co. pay for Jeff’s medical costs?
